

PURE FLAME

AUTOMATIC ETHANOL FIREPLACE

BEV Technology®

READY TO BUILD-IN FIREPLACE

Pure Flame consists of two connected modules – a key-locked fuel box with a control panel and the fireplace cassette. You don't need any chimney or additional ventilation, just insert the cassette into a furniture opening. The casing is well insulated so the heat can be emitted through the front of the fireplace.

AUTOMATIC ETHANOL FIREPLACE

The automatic burner with the patented BEV Technology® is the most advanced product in the industry ensuring the cleanest burning process without any smoke, smell or ash. The flame is produced by combusting ethanol vapours and has no direct contact with the liquid fuel.

EASY REFILLING SYSTEM

The system automatically supplies the fireplace with the necessary amount of fuel. When the tank is empty, all you have to do is insert a new one.

OPTIONAL REMOTE CONTROL

Take full control over the fireplace with the intuitive and minimalistic remote in your hand.
